DETAILED ACTION

Claim Objections

1. Claims 17-19 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 17-19 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim(s) 17-19 are directed to more than one statutory invention(s).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 5, "deposit tray magazine" lacks antecedent basis.

Claim Rejections - 35 USC § 102

Art Unit: 3651

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 3-7, 9-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Ruder (DE 38 29 355 A1).

Ruder (DE 38 29 355 A1) discloses :

- Deposit trays, Figure(s) 2, equally spaced member(s);
- Magazines, Figure(s) 2, accumulated member(s);
- conveying section 4, 6, 10;
- lifting device 11, 12.

Claim Rejections - 35 USC § 103

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 2, 5-6, 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Colombo (5,473,978).

Colombo (5,473,978) discloses:

- Deposit trays 4;
- Magazines 4C (an entire row);

Art Unit: 3651

- conveying section 6, 7 & 16;
- displacement device 5 comprising vertically movable sections 47 & 49.

Colombo (5,473,978) lacks printed products as article(s).

It would have been obvious to modify Colombo (5,473,978) to be applied to conveyance of printed products in order to increase efficiency.

10. Claims 1-7, 9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ruder (DE 38 29 355 A1) in view of Holtman (EP 0 888 994 A1).

With regard to claim(s) 1-2, Holtman (EP 0 888 994 A1) teach(es) tray gap control as a function of product thickness for printed products.

It would have been obvious to modify Ruder (DE 38 29 355 A1) to provide control as a function of product thickness in order to increase efficiency as taught by Holtman (EP 0 888 994 A1).

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3651

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

12. Claims 8, 13-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Dillon, Jr. whose telephone number is (571)272-6899. The examiner can normally be reached on 8-5:30, every other Friday off.
